|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <i>Vivcharenko A.V.</i> Analysis of government support mechanism and formation of prices in coal industry .....                                                   | 7   |
| <i>Smirnov A.V.</i> DTEK: conception of leadership in coal extraction .....                                                                                       | 17  |
| <i>Bondarenko V.I., Kharin Ye.N., Antoshchenko N.I., Gasyuk R.L.</i> Theoretical basis of uneven of gas emission from underworked coal seams and host rocks ..... | 23  |
| <i>Kovalevskaya I.A., Snigur V.G., Svistun R.N.</i> Research of stress-strain-state and mine working support on ultradeep horizons .....                          | 35  |
| <i>Ilyashov M.A., Agafonov A.V., Dedich I.A.</i> Methane extraction from drainage boreholes that drilled on surface in PJSC "Mine Management Pokrovskoe" .....    | 41  |
| <i>Kirichenko V.Ya.</i> Resource-saving mine workings supports for development on deep depth .....                                                                | 49  |
| <i>Shvetz V.Ya., Yerokhondina T.O.</i> Estimation of investment attractiveness of Dnipropetrovs'k and Donets'k regions .....                                      | 59  |
| <i>Okalelov V.N., Velichko V.N.</i> Technological development schemes of small coal mines local reserves .....                                                    | 67  |
| <i>Dolzhikov P.N., Gayko G.I., Paleychuk N.N., Dolzhikov Yu.P.</i> Research of mine workings length influence on coal extraction efficiency .....                 | 75  |
| <i>Simanovich G.A., Astafiev D.O., Gusev A.S.</i> On the question of face complex support loading in hard mine-geological conditions .....                        | 81  |
| <i>Melnik V.V., Grebyonkin S.S.</i> Development of mining education of Russia and Ukraine in XXI century .....                                                    | 87  |
| <i>Krasnik V.G.</i> Perfection of scientific-technical assurance of coal industry .....                                                                           | 93  |
| <i>Pilyugin V.I., Starikov G.P.</i> Advance ways of functional regulatory system in the area of ventilation planning and longwalls degasification .....           | 99  |
| <i>Chepurnaya L.A., Filatiev M.V., Antoshchenko N.I.</i> Forecasting of process parameters of earth surface movement during coal seams extraction .....           | 105 |
| <i>Buzilo V.I., Poymanov S.N., Rasstriga V.P.</i> Analysis of technology and stoping elements influence on energy saving in coal mines .....                      | 115 |
