

CONTENT

<i>Khalimendyk V.Yu.</i> Increasing of application effectiveness of frame supports on coal mines of Ukraine	129
<i>Astafiev D.O.</i> On the question of reuse mine workings protection during selective technology of coal extraction	137
<i>Rastsvietaiev V.O.</i> Prospects of transport and technological systems improvement during performing of mounting/dismounting operations in conditions of Western Donbass mines	143
<i>Petrov S.A.</i> Application of resin for roof rocks strengthening in stoping faces	149
<i>Ivanov I.Ye.</i> Improvement of joint clamps of steel supports from special concave profile (SCP)	157
<i>Demydov M.S., Shapovalov Ya.A., Astafiev D.O., Demchenko Yu.I.</i> About regularities of technological parameters influence on accident-free mining of flat coal seams by plow systems	165
<i>Solodiankin O.V., Vygodin M.O., Korobchenko V.V., Smirnov A.V., Prokudin O.Z.</i> Improvement of skin grouting technology in complicated geological conditions of Western Donbass mines	171
<i>Shyrin A.L.</i> Research results of visually-optical method of diagnostics rock unloading process from mine wagons	179
<i>Biletskyi V.S., Gaiko G.I.</i> Agricola and his fundamental work “De Re Metallica” (the exit of the first ukrainian-language edition)	185
<i>Kolosov V.O., Stupnik M.I., Kalinichenko V.O.</i> Condition and prospects of Ukrainian mining industry development	193
<i>Stupnik M.I., Kalinichenko V.O., Kolosov V.O., Bah I., Pozdniakov V.</i> Key aspects of the formation of underground points for maintenance and refueling of mining self-propelled equipment	199
<i>Shvydko P.V.</i> Directions of raw materials base development of nuclear energy in Ukraine	203
<i>Portnov V.S., Yurov V.M., Kamarov R.K., Brazhanova D.K.</i> Estimation of mineral resources by means of physical and geophysical methods	215
<i>Kononenko M.M., Petyovanyi M.V.</i> Stress-strain state of rock massif and backfill around chambers of second stage mining	221
<i>Solodiankin O.V., Yankin O.Ye.</i> Quality improvement of vertical shafts outlining at blast-hole drilling	229
<i>Kryzhanivskiy Ye.I.</i> The degradation of materials for oil and gas facilities and longterm operation and ways to ensure their health	241
<i>Shyrin L.N., Lytvyn A.D.</i> Increasing of gas extraction and transportation systems effectiveness in conditions of Proletarskyi underground gas storage facility	255
